Cathy, Kurt,

The Final Agency Review for the Oil and Natural Gas rule is on March 25 (after some delay). Natalie Topinka has been following the workgroup closely and our concurrence comments are attached. We would like to concur with comment. comments on this "policy" portion are essentially a summary of the main technical issues that have been discussed on the weekly workgroup calls for this matter and are aligned with those comments put forth by OECA, R3, and R8 (i.e. the attachment is the same). R6's workgroup member is going to be absent for the FAR meeting and R6 is not commenting. I can follow up with you later today on the following:

- Would you like to cover this meeting or would you like us to cover the meeting for you?
- Would you like to be briefed?

Thanks,
-Ed

Subject: OAR Final Agency Review Meeting on SAN 6616, Oil and Natural Gas Sector: Emission Standards for New, Reconstructed, and Modified Sources Review

Attached is Final Agency Review meeting invitation on SAN 6616, Oil and Natural Gas Sector: Emission Standards for New, Reconstructed, and Modified Sources Review, rescheduled to March 25, 2019, 12:30-1:30pm (CT). ~~March 14, 2019, 12:30-1:30 pm (CT)~~.

I'm sure you probably have this covered, but as a precaution we routinely ask the involved division(s) the following:

- Has Cathy Stepp been briefed on this action and do you know and understand her position?
- Are you planning on briefing Cathy before this meeting?
- Do you know if Cathy is planning to attend?
- If Cathy will not be attending has someone been delegated by her to put forward the R5 position?

Please let me know prior to this meeting.

Thanks,

Mayra Maldonado, Associate Regional Planner
Planning & Quality Assurance Group, U.S. EPA Region 5
